As a program, we respect the data that shows folks seeking care tend to be better served by providers who come from their same or similar community or cultural milieu, especially when considering marginalized communities, or peoples who have experienced systemic discrimination. We will take this into consideration in our decision making process.

Please answer the following questions (use additional pages as needed):

1. The purpose of this scholarship is to expand the reach of the TCTSY program and to address health disparities by engaging yoga teachers and mental health professionals who will commit to providing TCSY services to a range of historically disadvantaged and high-risk groups who are impacted by traumatic stress. Please tell us about your plans following the certification—where do you plan to teach, to what groups, will you volunteer your services? Be as specific as possible regarding what you plan and how you plan to do it. Include any affiliations that you either have or will foster with agencies and community groups who support the population you will be serving.*
2. Please tell us about any work experience, education, or other life experience that is relevant to working with those who have experienced complex trauma and/or treatment-resistant PTSD.
3. We take into consideration individual financial need to responsibly distribute funds and to make it feasible for as many applicants as possible to attend the training. With that in mind, please tell us about your financial situation.
4. (optional) Is there anything else about you that would be helpful for us to know?

Please include two letters of recommendation.
